PLANS AND OBJECTIVES FOR FISCAL YEAR 1968

Suggestions and Inventions

1. Encourage cost reduction and cost avoidance ideas, procedural improvements, new developments and inventions, problem solutions, and operational ideas -- especially by reaching more supervisory personnel.
2. Develop a new series of posters and handouts to increase participation.
3. Publish several issues of "Suggestion Exchange" during the year to inform employees of the types of suggestions and inventions that have been adopted.
4. Continue to work with Internal Panels in the various offices. NPIC has many cases under evaluation now. The Coordinator for the Directorate of Intelligence is anxious to get specialized programs started in other offices in his directorate. We will work with him toward this objective.
5. Give further publicity to the program by scheduling showing of new films to interested offices. Two recent films that we can acquire to spark ideas are: "How to Succeed Without Reinventing the Wheel," and "What's the Big Idea."
6. Through means of a Clandestine Services Notice or Staff Meeting of the Deputy Director for Plans give appropriate explanation of the types of ideas that the Clandestine Services Special Panel is seeking.
7. Urge offices such as Logistics that have formed a "Century Club" (employees who have had awards of \$100 or more), to use the potential of the group to gain new ideas.
8. Accelerate a program to brief small groups of supervisory personnel in the use of the Suggestion Program as a management tool, and problem solving vehicle.
9. Revive participation and creativity efforts in outlying stations.
10. Conduct an intensive program to expedite suggestion evaluations.
